

Sustainability Report 2025

Our company is committed to reducing greenhouse gas emissions and promoting sustainable practices across our operations. In 2024, we achieved a 15% reduction in carbon emissions compared to our 2019 baseline, exceeding our target of 12%.

Key achievements include:

- Reduced Scope 1 and 2 emissions by 15% since 2019
- Increased renewable energy use to 35% of total energy consumption
- Reduced water use intensity by 10% across operations
- Diverted 78% of waste from landfill through recycling and reuse programs

We continue to align our reporting with the TCFD framework and are working towards full compliance with the EU's Corporate Sustainability Reporting Directive (CSRD).
